The Alberta Returned Soldier Commission

One of the interesting features in the work of the Alberta Returned Soldiers' Commission has been the disposal of deceased soldiers' effects.

The Alberta Battalions had in their ranks a majority of men from the British Isles. A great number of these men were unmarried, without next of kin in Canada. During the early stages of the war these men were the first to enlist, not having relatives in Canada they packed their civilian possessions in trunks and boxes leaving them with friends or acquaintances until their return, but many will never return having given their lives for the mother country. These trunks and boxes in the vast majority of cases are still in Alberta and owing to the deceased soldier not having left the address of his next of kin with the person keeping the effects.

The records of the A.R.S.C. show some interesting cases:

The case of Pte. S. — is one in point: a trunk was left with a family in Calgary, it later being handed to the A.R.S.C. for disposal no record of the regimental number of the soldier was to be found but on examining the trunk and its contents a number of photographs were discovered, by a mere coincidence one was of a young lady with her name on the back of the snapshot. The picture was taken on the platform of a railway station in Scotland, in the background of the photograph was a lamp post bearing the name of the station. A letter was immediately sent to the young lady addressed to the town shown in the snapshot; a reply was received giving full particulars of Pte. S. — enabling the office to dispatch the trunk, through the military authorities to the next of kin in Scotland.

Another case of interest was that of Pte. D. —. No record of a regimental number was to be found but the trunk contained a number of letters from Blackpool, England:

three different letters were selected, each being signed by a young lady's christian name only but fortunately the letters were headed by an address. Letters were sent to them bearing the christian name of the young lady; in all three cases replies were received giving particulars of Pte. D. —, sufficient to send the trunk to his mother overseas.

A similar case to that of Pte. D. — was that of Pte. L. —. Upon writing to an address in England, giving the christian name only, a reply was received from the deceased soldier's sister.

Another case was that of Cpl. S. —, a book giving the clue. The book was apparently presented by a friend, and the fly leaf contained the giver's name and address. Through this address the effects were sent to his home in the old country.

The Estates Branch of the A.R.S.C. has since its inception probated approximately 1500 Wills for the estates of deceased soldiers.

Persons having or knowing of effects and papers of deceased soldiers are requested to communicate with the Asst. Secretary of the A.R.S.C., 214, Beveridge Bldg., Calgary, Alta.

Soldiers' Civil Re-Establishment

Invalided Soldiers' Commission

The school at East Calgary for the re-training of invalided soldiers is still carrying on its good work. Many of the men who have passed through this school have been not only fitted to take their place in civilian life again but hold good positions. Some are with the Forestry Department and others in the Postal Departments; and again there are others in Municipal works of our cities. It is gratifying to all to know that success is at all times with the students and that the instruction they receive at the school is valued and appreciated by the men themselves.

Work Is Our Salvation

The signing of the peace treaty, and with demobilization of the army so well advanced that, so far as Canada is concerned, July 31 has been fixed as the official date by which demobilization will be considered as having been completed, brings the nations of the world to close grips with vital domestic problems of reconstruction. It was, of course, impossible to turn the world upside down for five years during which the energies of almost all mankind and the resources of all civilized nations were devoted to works of destruction without creating conditions which will require much time, great patience and almost infinite wisdom to restore to normal.

The necessities of war forced the abandonment of many sound business principles. The need of securing supplies in huge quantities at a moment's notice resulted in the payment of unheard of prices for these supplies, and the payment of higher scales of wages in order to secure the necessary output than had hitherto been known, especially as countless millions of men had been withdrawn from productive enterprise into the armies. The inevitable result was the doing of business in many extravagant ways because output was demanded regardless of the cost. And this excessive cost of production, coupled with the wholesale destruction of property and wealth which was taking place all over the world, led to an increase in the cost of living which has become a burden almost too great to be borne. This, in turn, led to still higher wages, and higher wages again increased costs of production.

It is recognized that this cannot go on. If it does, the point will finally be reached where inflation will end in depression, a stoppage of industry, and widespread unemployment. Should that unfortunate condition be created then wages will take a tumble, because under the stress of necessity men will work for almost anything in order to get work and supply the needs of themselves and families. In Canada, we do not want to reach that stage, and it is, therefore, the duty of Government and people alike to direct their minds and bend their energies to eliminating further waste and reducing the cost of living.

Wages undoubtedly must and should be maintained at a fairly high

level, and there will be much sympathy with the demand of all workers for an adequate return for their labor. But a halt must be called to the almost universal demand for a marked shortening of the hours of labor and a consequent decrease in production which means an increased price for the article produced. In these days people should be willing to work longer hours and thus assist in increasing production to make good the waste and destruction of the past five years, rather than insist upon performing less work. By so doing they will be working out their own and their country's salvation and warding off depression and further loss.

Great Britain, for example, is facing a national crisis as a result of the high wages and short hours demanded by the coal miners and which have made necessary an increase of \$1.50 a ton in the price of coal. This means an increased cost of fuel to the people, increased transportation charges on railways and steamships, increased manufacturing costs of all goods, and because of these increased costs of production a decreased ability to compete for trade in the export markets of the world, and consequent loss of trade. The coal mining industry could stand the paying of the higher wages, but the shorter hours of employment means such a loss in output that the combined loss is staggering and, of course, in the final analysis, the people must pay it.

In Canada we are face to face with somewhat similar conditions and the country is passing through an era of industrial strikes which, as Premier Borden has pointed out in an appeal to all the people for co-operation, are almost as destructive as war itself. There should be no strikes in Canada. They entail loss all round. And they are an unnecessary survival of a by-gone age, because we now have all the necessary machinery of arbitration to settle any disputes which may arise.

Canadians need to arouse themselves to full recognition of the fact that true patriotism at this time demands the rendering of just as unselfish service as was given by our soldiers in the war. If the call of patriotism will not lead men and women to render such service, then in self-interest they should do so in order to avert nation-wide depression and unemployment. Our soldiers did not cavil at the long hours of labor they put in for us and our country's cause. Nor should the workers of Canada now demand a reduction of hours of labor to an extreme minimum.

In some quarters the fallacious doctrine is preached that it is necessary to shorten the hours of individual labor in order to supply employment for all. The reverse is true. The greater the production, the greater the wealth produced and the greater the amount of new employment which will be provided. Adversely, restrict the output of any essential commodity, say coal as in Britain, and the output of all other industries is adversely affected and the amount of employment lessened.

Let a high standard of wages be maintained, but let our people be willing to work even longer hours than before the war, and throw their whole energy and capacity into their work during their hours of labor. Only so will they save themselves and their country from an even more perilous position than that of the Great War.

LISTLESS, PEEVISH GIRLS

When a girl in her teens becomes peevish, listless and dull, when nothing seems to interest her and dainties do not tempt her appetite, you may be certain that she needs more good blood than her system is provided with. Before long her pallid cheeks, frequent headaches, and breathlessness and heart palpitation will confirm that she is anaemic. Many mothers as the result of their own girlhood experience can promptly detect the early signs of anaemia, and the wise mother does not wait for the trouble to develop further, but at once gives her daughter a course with Dr. Williams' Pink Pills, which renew the blood supply and banish anaemia before it has obtained a hold upon the system.

Out of their experience thousands of mothers know that anaemia is the sure road to worse ills. They know the difference that good red blood makes in the development of womanly health. Every headache, every gasp for breath that follows the slightest exertion by the anaemic girl, every pain she suffers in her back and limbs are reproaches if you have not taken the best steps to give your weak girl new blood, and the only sure way to do so is through the use of Dr. Williams' Pink Pills.

New, rich red blood is infused into the system by every dose of these pills. From this new rich blood springs good health, an increased appetite, new energy, high spirits and perfect womanly development. Give your daughter Dr. Williams' Pink Pills, and take them yourself and note how promptly their influence is felt in better health.

You can get these pills through any dealer in medicine or by mail post-paid at 50 cents a box, or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

The Policy Of "Grab"

Hard to Get Back to the Sane Days of Moderation and Peace

It is difficult for the ordinary man to understand why, now that the war is over and industries everywhere are once more busy producing for peace purposes, there should not be a return to something like normal conditions. Financial experts can explain the matter completely to their own satisfaction, but to the ordinary man on the street it appears as if it is just a case of grab. The "easy money" of the war has demoralized all classes, and it is hard to get back to the sane days of moderation and peace. The rake's progress cannot go on indefinitely, however, and the sooner this is recognized by governments and profiteers the better.

Don't hurl defiance unless your aim is good.—Life.

Land Settlement For British Soldiers

1,000,000 Former Imperial Soldiers Planning to Leave for Overseas Dominions

Toronto, Ont.—When passing through this city en route to Calgary Christopher Turner, of England, who is in this country for the purpose of investigating the Union Government's land settlement plans for imperial soldiers, said that there are 1,000,000 former soldiers of the imperial forces in England who are planning to leave for one of the overseas dominions within the next two years to engage in farm work, and declared that there is immediate need on the part of the Government of Canada of strong effort to attract the greater part of these men to the Dominion.

Speaking of the land settlement of the British Empire, Mr. Turner said: "It is appalling that out of about 60,000,000 white population, only about 13,000,000 are on the land, while Germany, one-sixty-fourth as large as the British Empire, has 22,000,000 on the land, and France 18,000,000." In order to remedy this condition of affairs, he explained that there is being formed in England a ministry of emigration, whose duty it will be to settle as many as possible on the lands of Great Britain and create a steady surplus of land-tilling countrymen who will be encouraged to come to Canada and other dominions. These men, he said, would probably settle in communities of about 150, the plan most attractive to the former soldier being a small holding with sufficient capital to operate it.

Labor Enquiry

Preliminary Arrangements for the Coming National Industrial Conference

Ottawa.—The labor sub-committee, under the chairmanship of Senator Robertson, will meet in Ottawa to make preliminary arrangements for the coming national industrial conference. The labor sub-committee is an offshoot of the cabinet reconstruction committee, and has among its members representatives both of capital and labor.

It will consider primarily: (a) The date when the national industrial conference shall meet; (b) How the various associations and unions of employees and employers will be represented; (c) the method by which representatives will be chosen.

It is expected that the conference will be held in Ottawa. The date will be as early as possible, possibly in August.

Can Trade With Germany

Washington.—General licenses covering import and export trading with Germany were issued by the war trade division of the state department with the approval of Acting Secretary Polk. Except in certain limited cases, provided under the treaty of peace, trading between the United States and Germany may be commenced at once.

Food Problem In France

Paris, France.—The cabinet considered the problem of the high cost of living. According to the Echo de Paris the government is considering opening the frontiers immediately for the importation of raw materials. The Figaro says the government is discussing the prohibition of the exportation of certain foodstuffs, such as butter, eggs and cheese. Other newspapers declare that the government intends to pass a law imposing severe penalties on food speculators.

Only Tablets Marked With "Bayer Cross" Are Aspirin

If You Don't See the "Bayer Cross" on the Tablets, You Are Not Getting Aspirin—Only Acid Imitation

Genuine "Bayer Tablets of Aspirin" are now made in Canada by a Canadian Company.—No German interest whatever, all rights being purchased from the United States Government.

During the war, acid imitations were sold as Aspirin in pill boxes and various other containers. The "Bayer Cross" is your only way of knowing that you are getting genuine Aspirin, proved safe by millions for Headache, Neuralgia, Colds, Rheumatism, Lumbago, Neuritis, and for Pain generally.

Handy tin boxes of 12 tablets—also larger sized "Bayer" packages can be had at drug stores.

Aspirin is the trade mark, registered in Canada, of Bayer Manufacture of Monoaceticacidester of Salicylic acid.

Sure! High Heels Cause Corns But Who Cares Now

Because style decrees that women crowd and buckle up their tender toes in high heel footwear they suffer from corns, then they cut and trim at these painful pests, which merely makes the corn grow hard. This suicidal habit may cause lockjaw, and women are warned to stop it.

A few drops of a drug called freeze-one applied directly upon a sore corn gives quick relief, and soon the entire corn, root and all, lifts out without pain. Ask the drug store man for a quarter of an ounce of freeze-one, which costs very little, but is efficient to remove every hard or soft corn or callus from one's feet.

This drug is an ether compound and dries in a moment and simply shrivels up the corn without inflaming or even irritating the surrounding tissue or skin. Clip this out and pin on your wife's dresser.

Alberta's Industrial Congress

Detail of plans, program and attendant features of the Canadian Industrial Congress, to be held at Calgary on August 13 and 14, and to include a tour of the Province by special train, has now been completely worked out and congress headquarters, located in the Palliser Hotel, Calgary, announces that reservations are being made for the special train tour, for the congress sessions, which are to be held in the Grand Theatre, Calgary, and for hotel accommodation.

The special train, it is announced, will leave Medicine Hat, on the morning of August 12, will run then to Lethbridge, from that city to Calgary, will be held here for two days during the congress sessions, then will run to Edmonton and from the Capital city will move to Banff, arriving in the Rockies on Sunday morning, August 17.

The Theatre sessions will open in the morning at 10 o'clock, on Wednesday, August 13, and will continue until 6 o'clock that evening with intermission of two and a half hours for luncheon, and on the following day, Thursday, will open at the same hour. There will be no evening sessions at the theatre, that portion of the day being utilized with entertainment and motoring.

The program is perhaps the most impressive ever gotten together at one industrial gathering on the continent, including among others Sir Robert Borden, E. W. Beatty, D. B. Hanna, Henry Ford, A. R. Erskine, Finley P. Mount, and many other industrial leaders of continental and world fame. Congress headquarters asks that all who desire reservation on either the special train, the congress sessions, at Calgary or for hotel accommodation write or wire to John M. McGreevy, Congress Manager, Palliser Hotel, Calgary, Canada, as early as possible.

Public Notice

By the Board of Trustees of the
Didsbury S. D. No. 652 of
the Province of Alberta

WHEREAS it is deemed expedient by the Board of Trustees of the Didsbury S. D. No. 652 of the Province of Alberta, that the sum of Fifteen Thousand Dollars should be borrowed on the security of the said District by the issue of Debentures repayable to the bearer in Thirty equal consecutive annual instalments with interest at the rate of not more than eight per centum per annum for the following purposes, namely:

Building a four-roomed Brick Veneered High School and the equipments therefor such as seats, blackboards, etc.

THEREFORE notice is hereby given by the Board of the said District that unless a poll of the ratepayers of the said District for and against the said debenture loan is demanded as provided by The School Ordinance, the said Board will apply to the Board of Public Utility Commissioners for authority to borrow the said sum by debentures.

Of which all persons interested are hereby notified, and they are required to govern themselves accordingly.

J. V. BERSCHT,
Chairman

Dated at Didsbury, Alta., this 21st day of July, 1919.

Instructions to Ratepayers

In rural districts a poll on a debenture loan may be demanded by any four ratepayers if the loan exceeds \$1,200.00 or if the loan is not for the purpose of building a first school house.

In town and village districts a poll may be demanded on any debenture loan by twenty and ten ratepayers respectively.

Every demand for a poll should be delivered to the Secretary of the District or in his absence to the chairman of the board within fifteen days from the date of posting these notices. A certified copy of the demand should be forthwith forwarded to the Board of Public Utility Commissioners of Alberta at Edmonton.

Certified a true copy

"What did you say about milking?" he ventured at length.

"I asked if you milked," she said, with an attempt at coyness. "And you answered, 'Milk what?' as though that were clever. And we need milk for breakfast."

"Well, I was serious enough," he said. "There isn't a cow within twenty miles."

"No cows?" Why, I thought this was the ranching country?"

"Sure thing. We sell beef and buy milk. Let me show you."

He approached a packing case on the wall, walking softly and extending his hands as though to touch it gently, and murmuring, "So boss; so boss," as he went. From the box he removed a tin of condensed milk, which he set on the table. "In his pocket he found a nail, and with a hammer quickly made two holes in the tin.

"Milk is finished," he announced.

At this juncture the doctor, who had been resting in the room with his patient, entered the kitchen. During the setting of the limb he gradually became aware of the position of Irene in the household, but had that not been so, one glance at the boy and girl as they now stood in the bright morning sunshine, he with his big, wiry frame, his brown face, his dark eyes, his black hair; she, round and knit and smooth with the pink shining through her fair skin and the light of day glancing on her brown hair, must have told him they had sprung from widely separated stock. For one perilous moment he was about to apologize for the mistake made in the darkness, but some wise instinct closed his lips. But he wondered why she had not corrected him.

They were seated at breakfast when the senior Elden made his appearance. He had slept off his debauch and was as sober as a man in the throes of alcoholic appetite may be. He was only partially dressed; his face had the peculiar bulginess of the hard drinker; his eyes were watery and shiny, and several days' growth of beard, with patchy grey and black spots, gave a stupefied effect to his countenance. His moustache drooped over a partly open mouth; the top of his large head was bald, and the hair that hung about his ears was much darker than his moustache. Seeing the strangers, he hesitated in his lurch toward the water pail, steadied himself on wide-spread feet, very flat on the floor, and waved his right hand slowly in the air. Whether this was to be understood as a form of saluta-

tion or a gesture of defiance was a matter of interpretation.

"Visitors," said the old man, at length. "Always welcome, in'sure. 'Sh' sench me." He made his uncertain way to the water bench, took a great drink, and set about washing his face and hands, while the breakfast proceeded in silence. As his preparations neared completion Irene set a place at the table.

"Won't you sit down here, Mr. Elden?" she said. There had been no introductions. Dave ate on in silence.

"Thank you," said the old man, and there was something in his voice which may have been emotion, or may have been the huskiness of the heavy drinker's throat. The girl gave him the former explanation. Perhaps it was his unintended tribute to that touch of womanly attentiveness to which his old heart still beat response. As he took the proffered chair, she saw in this old man shreds of dignity which the less refined eye of his son had not distinguished. To Dave, his father was an affliction to be borne; an unfair load on a boy who had done nothing to deserve this punishment. The miseries associated with his parentage had gone far to make him sour and moody. Irene at first had thought him rude and gloomy; flashes of humor had modified that opinion, but she had not yet learned that his disposition was naturally a buoyant one, weighed down by an environment which had made it soggy and unresponsive. In years to come she was to know what unguessed depths of character were to be revealed when that stoic nature was cross-sectioned by the blade of a keen and defiant passion. This morning she foresaw nothing of those future revelations, but in the old man her instinct detected qualities which perhaps were awaiting only some touch of sympathetic understanding to flash forth even yet like that burst of sunset radiance which sometimes marks the close of a leaden day.

Mr. Elden promptly engaged the doctor in conversation, and in a few moments had gleaned the main facts in connection with the accident and the father and daughter which it had brought so involuntarily under his roof. He was quite sober now, and his speech, although slovenly, was not indelicate. He was still able to pay to woman that respect which curbs the coarseness of a tongue for years subjected to little discipline.

After breakfast Irene attended to the wants of her father, and by this time the visiting doctor was manifesting impatience to be away. Other fees were calling him, and he assured Doctor Hardy, what the latter quite well knew, that nothing more could be done for him at present. He would come again at any time if summoned by the young man, or if his professional duties should bring him into the neighborhood of the Elden ranch. But Dave declared with prompt finality that the horses must rest until noon, and the doctor, willy-nilly, spent the morning rambling in the foothills. Meanwhile the girl busied herself with work about the house, in which she was effecting a rapid transformation.

After the mid-day dinner Dave harnessed the team for the journey to town, but before leaving inquired of Irene if there were any special purchases, either personal or for the use of the house, which she would recommend. With some diffidence she mentioned one that was uppermost in her thoughts: soap, both laundry and toilet. Dr. Hardy had no hesitation in calling for a box of his favorite cigars and some new magazines, and took occasion to press into the boy's hand a bill out of all proportion to the value of the supplies requested. There was an argument in the yard, which the girl did not fully hear, between father and son, but she gathered that the old man insisted on going to town, and, failing that, that Dave should replenish his stock of whiskey, to neither of which would the young man consent. It was evident that Dave was the responsible person in the affairs of the Elden ranch.

The day was introductory to others that were to follow. Dave returned the next afternoon, riding his own horse, and heavily laden with cigars, magazines, soap, and with a soft little package which proved to be a sponge, which he had bought on his own initiative, and which he tendered

to Irene. She took it with slowly rising color, and with a strange misgiving whether this was a bona fide contribution to the toilet equipment of the house, or a quiet satire designed to offset the effect of the appeal for soap.

The following day it was decided that the automobile, which since the accident had lain unturned by the roadway, should be brought to the ranch buildings. Dave harnessed his team, and, instead of riding one of the horses, walked behind, driving by the reins, and accompanied by the girl, who had proclaimed her ability to steer the car. When they reached the stream she hesitated, remembering her mishap, but the boy slipped his unoccupied hand firmly under her arm, and they walked the log in safety. It seemed to Irene that he continued his assistance when it was no longer needed, but she accepted the courtesy without remark.

With the aid of the team and Dave's lariat the car was soon righted, and was found to be none the worse for its deflection from the beaten track. Irene presided at the steering wheel, watching the road with great intentness and turning the wheel too far on each occasion, which gave to her course a somewhat wavy or undulating order, such as is found in bread knives, or perhaps a better figure would be to compare it to that rolling motion affected by fancy skaters. However, the mean of her direction corresponded with the mean of the trail, and all went merrily until the stream was approached. Here was a rather steep descent, and the car showed a sudden purpose to engage the horses in a contest of speed. The animals were suspicious enough at best of their strange wagon, and had no thought of allowing it to assume the initiative. Now, Irene knew perfectly well where the brake was, and how to use it. In fact, there were two brakes, operated by different members, and perhaps it was this duplication, intended to insure safety, that was responsible for her undoing. Her first impulse was to use the emergency, but to do so she must remove her hand from the steering wheel, where it was very fully occupied. She did start to put this impulse into effect, but an unusually violent deflection caused her to reconsider that intention. She determined to use the foot brake, a feat which was accomplished, under normal conditions, by pressing one foot firmly against a contraption somewhere beneath the steering post. She shot a quick glance downward, and to her alarm discovered not one, but three contraptions, all apparently designed to receive the pressure of a foot—if one could reach

them—and as similar as the steps of a stair. This involved a further hesitation, and in automobiling he who hesitates invites a series of rapid experiences. By this time all Irene's attention was required to bring the car to some unanimity of direction. It was quite evident that it was running away. It was quite evident that the horses were running away. The situation assumed the qualities of a race, and the only matter of grave doubt related to its termination. Dave, still holding fast to the reins, ran beside the car with prodigious strides which enabled him to bring but little restraint upon the team, and Irene held to the steering wheel with a grip of desperation.

Then they struck the water. It was not more than two feet deep, but the extra resistance it caused, and the extra alarm it excited in the horses, resulted in the breaking of the lariat. Dave still clung fast to his team, and now that the terrifying rival no longer pursued them, they were soon brought to a standstill. Having pacified them he tied them to a post and returned to the stream. The car sat in the middle; the girl had put her feet on the seat beside her, and the swift water flowed by a few inches below. She was laughing merrily when Dave, very wet in parts, appeared on the bank.

Shipyards Are Much Behind Schedule

General Strike Throwing Yards Far
Behind With Work

Vancouver, B.C. — Twenty-eight vessels, wooden and steel, have been launched in this province since the beginning of the year. Thus far a total tonnage of 75,500 has been sent to the water from British Columbia yards. Last year there were 42 ships built and launched with a total dead-weight tonnage of 155,600. The estimated total for this year is 165,000 tons, but the present tie-up owing to the general strike is throwing all the yards far behind their schedule.

The strike started on June 3, and is still in progress. W. L. Macdonald, the official wage adjuster, under the Senator Robertson agreement which is still in force, announces that dating back to June 1, an increase of 2 3/4 cents per hour is awarded all employees engaged in the shipyards of the province.

Third Dose Relief! Fifth Dose! Diarrhoea Stopped.

Diarrhoea does not need to persist for any length of time until the whole system is weakened and debilitated. No other disease so quickly undermines the strength and brings about a condition of prostration and very often total collapse.

Dr. Fowler's Extract of Wild Strawberry is not only prompt and effective in checking the diarrhoea, but at the same time acts as a stimulant, strengthens the heart and braces up the whole system, and one of its principal points is that it does not leave the bowels in a constipated condition.

Mr. W. H. Arnold, Fort Qu'Appelle, Sask., writes: "A few years ago while out threshing, I had a severe attack of diarrhoea. Nothing I took seemed to do me any good. I was getting worse all the time. Hearing that Dr. Fowler's Extract of Wild Strawberry was good for diarrhoea, I went into town and procured a bottle. After the third dose I felt relief, and after I had taken the fifth dose the diarrhoea had stopped. I always keep it in the house, and would not be without it."

See that you get the original "Dr. Fowler's." It has been on the market for the past 74 years. Substitutes may endanger your health. Price 35c. Put up only by The T. Milburn Co., Limited, Toronto, Ont.

Huns Intended to Smash Vancouver

Toronto.—"Canada's great naval day is not Trafalgar nor Jutland; it is the day on which the British squadron broke to pieces the German fleet at Falkland Islands," said Rev. Dr. Alfred Hall, senior chaplain of the Canadian naval institutes, in an address delivered at Earl's Court Methodist church. Dr. Hall stated that the shores of Canada were preserved by the battle at Falkland Islands, and that the German squadron intended to smash Vancouver.

Ulster Leader's Speech Is Severely Criticized

London. — Sir Edward Carson's speech has brought the Ulster leader under the lash of the newspapers of all parties, primarily on account of his references to the United States, which he criticized as tactless and calculated to breed bad blood between the two nations, and, secondly, because he reiterated his old threat to call out the Ulster volunteers to resist any attempt to place the Home Rule Act in operation.

The Attorney-General, Sir Gordon Hewart, announced in the House of Commons that there were no grounds for setting the law in motion against Sir Edward because of his threat to call out the Ulster volunteers against Home Rule.

By a vote of 217 to 73, the House rejected a motion by J. R. Clynes, Labor member, urging the government to prosecute Sir Edward Carson for his speech as incitement to violence and breach of the law.

The debate turned on the legal point, in which, the Attorney-General said, he had the concurrence of the Solicitor-General. But almost all the speakers without distinction of party condemned the Carson speech. Sir Donald Maclean, Liberal, appealed to the government to try to regain the moral authority of parliament by condemning the language the Irish Unionist leader used.

Andrew Bonar Law, the government spokesman, contended that the government was bound to be guided by its legal advisers, though nothing could be more painful to him. If the government had been advised that the law was broken he would have insisted on action being taken or would have resigned. The whole thing was a very unfortunate affair, said Mr. Bonar Law.

The Labor organizations are not slow to point out how such incitement to "direct action" could be improved upon in the industrial field for securing political ends. The Liberal pro-Irish papers are really quick to point out that in point of tactics there is no difference between "King De Valera" and "King Carson."

Labor Conference Called At Ottawa

Premiers of Provinces, Labor Leaders and Employers to Be Invited

Ottawa.—It was decided at a meeting of the privy council to call a national industrial conference for September 11. To this meeting all provincial premiers or accredited representatives will come to talk over with representatives of organizations of employers and employees just what legislation would best help bring about an era of co-operation and concord in Canadian industry. Great efforts will be put forth to secure the hearty cooperation in this conference of all elements of labor and all organizations of employers.

Prices Drop In Germany

Profiteers, in a Panic, Flood Markets With Stocks of Food

Berlin.—Prices on all foodstuffs have fallen with a crash in Berlin as a result of the lifting of the blockade. They began to show weakness when it was rumored that the embargo would be lifted, but the real drop came only when illicit dealers with huge concealed stocks brought them out in universal panic to unload before competing supplies entering Germany.

Tons of provisions are being shipped in from occupied territories, while everywhere in the city German stores of coffee, cocoa, butter, sausages, and other supplies have made their appearance. Coffee prices fell from an average of forty marks to below twenty, and the product could easily be bought for fifteen.

Other food prices were correspondingly cut. Restaurants, however, still maintain high prices and apparently intend to continue to do so as long as possible.

Minimum Price Of 1919 Crop

Winnipeg.—An afternoon paper prints the following from its Ottawa correspondent:

Confirmation was given by Sir Thomas White of the report that a minimum price for wheat will be guaranteed in all probability by the government. What this price is to be Sir Thomas would not say. The intention is to give commercial and financial stability to the marketing of the crop in view of unsettled world conditions, the unique situation created by the United States fixed price, and the uncertainty as to how the world demand would react to the queer conditions now obtaining. The fixing of a price gives a guarantee which will facilitate the placing of the crop, it is hoped.

Hot In India

Troops Campaigning in India Suffer Terribly From Heat and Cholera

Peshawar, India.—The continued heat is appalling, but everything is being done to mitigate the sufferings of the troops. Ice plants have been fitted up at Landikotal and Dakma, and an attempt is being made to supply a pound of ice daily to each British soldier. Special huts have been equipped in the Khyber district for treatment of heat cases. The violent epidemic of cholera, which broke out in June, lasted nearly three weeks. There were 1,663 cases and 566 deaths, principally among the camp followers. Six British officers and 15 men also died, but the disease is now practically stamped out.

A special train now daily carries troops for short spells to the Murree Hills. The troops are now better housed and fed than in any previous campaign. The firm steadiness of the British troops in facing the heat deserves the utmost admiration.

Set Price Of U. S. Wheat

Wheat and Wheat Flour Imports and Exports Put Under Prescribed Limitations

Washington. — President Wilson has signed an executive order increasing the guaranteed price of the 1919 wheat crop to \$2.30 per bushel at Galveston and New Orleans.

At the same time a presidential proclamation was issued declaring that in order "to protect the United States against undue enhancement of its liability" under the law guaranteeing wheat prices, that on and after July 31 no wheat or wheat flour should be imported into or exported from the United States except within prescribed limitations to be prescribed by the wheat administrator.

Raisuli Again On Warpath

Spanish Position Is Attacked By the Bandits

Madrid. — Raisuli, the Moroccan bandit, according to an official communication, again has attacked the Spanish positions at El Arish, but was repulsed after a long and bitter fight. The bandit, realizing that the Spanish forces had cut off communication between his camp and Tangier, decided to attack, and the communication said it was carried on furiously. Raisuli suffered heavy losses, leaving many dead or wounded on the field. The communication adds that the Spaniards also lost heavily, but they are pursuing Raisuli, who is fleeing into the mountainous country.

61 Druggists May Be Liquor Vendors

Winnipeg. — Sixty-one Manitoba druggists have been licensed to sell liquor during the coming fiscal year, against 69 last year, according to J. N. MacLean, administrator of the Temperance Act.

Co-Operative Plan Suggested

To Aid Stockmen to Get Feed to Cattle, or Cattle to Feed, as Needed

Ottawa.—To relieve the stock-raisers in the dry areas of Alberta and Saskatchewan whose herds are threatened through scarcity of feed, the federal government has submitted two proposals to the provincial governments interested. It is proposed to cut hay on the Dominion lands in the north, bale it and ship it south to feed the cattle or to send the cattle from the southern areas to the hay lands of the north, where moisture has been adequate and grass is abundant.

To carry out either or both of these proposals the Dominion government has proposed to the provincial authorities that the cost of securing and moving the hay and cattle be borne equally by the Dominion government, provincial governments, railway companies and stock owners.

Another proposal for division of expense is that it be borne equally by the Dominion government, provincial governments and railway companies. This latter probably will be adopted, as the stock owners may not be in a financial position to assume any part of the cost. The Alberta authorities have signified their willingness to co-operate, and it is believed will advise that the whole expense be borne by the Dominion and provincial governments and the railway companies.

Forest Fires Caused By Heat

Three Men Trapped in Tunnel of Mine in Salmon River Valley

Nelson.—Three men are trapped by forest fires in a tunnel at the Second Relief mine, near Erie, in the Salmon River Valley. The men are known to have provisions enough to last them for four days.

According to a telephone message received here from Erie, the men are believed to be safe for the time being, although there is danger that they may be suffocated should the flames close in on the mouth of the tunnel.

Several forest fires have started in this district during the past few days as a result of the hot wave. Forest rangers say that the fires are due to the spontaneous combustion of gas generated by the heat from the resin in the trees.

Slogan City, about 25 miles from here, is surrounded by fires. Fire hose have been stretched to outlying sections of the town.

Manitoba Taking Alberta Cattle

Winnipeg.—As a result of the present crisis in the cattle industry in Alberta, where there has been a total failure of hay and other fodder crops, leaving, according to reports, approximately 150,000 head of cattle without food, the Manitoba Department of Agriculture has decided to purchase between 25,000 and 30,000 head for the farmers of this province. Action by the government was announced by Hon. V. Winkler, minister of agriculture.

Britain May Have New Political Party

U.S. Opinion And Irish Question

London.—The British government does not regard the action of the United States senate with respect to Ireland or the acts in the same connection of other persons or bodies representing the United States people, as in violation of Article 10 of the League of Nations covenant, said Andrew Bonar Law, government leader in the House of Commons.

The government, Mr. Law added, would not put the question of the future government of Ireland on the program for consideration at the next meeting of the council of the League of Nations.

Predicts Split In Labor Ranks

Dominion Trades and Labor Council Will Have to Take Some Action

Winnipeg. — In the opinion of many union officials, summary action by the Dominion Trades and Labor council is expected to follow the adoption by the local Trades and Labor Council of the Calgary convention report, amounting to full endorsement of the "One Big Union" project. The possibility that the local council's charter will be cancelled and formation of a new council comprising unions loyal to the congress authorized, was widely discussed in labor circles.

R. A. Rigg, general organizer for the congress in Western Canada, announced that he had telegraphed the Ottawa headquarters about the action taken by the local council and that he expected to learn what steps would be taken soon.

Mr. Rigg spoke for half an hour against the "One Big Union" before the vote was taken. "It was all arranged, anyhow," he said, "and there was no chance of winning our point so long as the Trades and Labor Council retains its present make-up."

Rioting in Stettin

Copenhagen.—A general strike, accompanied by rioting, has started at Stettin, capital of the province of Pomerania, Prussia, according to advices received from German sources. The strike involves all trades, including harbor transport, water and electrical power workers. The object of the strike is to secure abolition of martial law in Pomerania and other political reforms.

No Military Entente With U.S.

London.—A report that Great Britain and the United States has entered into an agreement regarding their respective military establishments was denied in the House of Commons by Andrew Bonar Law, Chancellor of the Exchequer.

London. — A sensation has been caused in political circles by the news that Colonel Winston Spencer Churchill, Secretary of War, who has just returned from visiting Premier Lloyd George at Criccieth, delivered a speech at a dinner in the west end, at which over a hundred members of the House of Commons were present, urging the necessity of a new and permanent coalition party, rechristened the "Centre" party.

The dinner was organized quietly, and only became known of when some of the diners returned to the House.

It appears that Col. Churchill, speaking as a disciple of Lloyd George, spoke for an hour, and reviewed old political differences, and emphasized the necessity for continued combination of the moderates among the Unionists and Liberals in order to preserve what had been won in the war.

Col. Churchill insisted that co-operation was necessary in order to fight Bolshevism.

The supporting speakers included the chief coalition Liberal and Unionist whips.

The Lord Chancellor referred sympathetically to the future of the Labor party, but some speculation exists as to the new party's attitude of alliance or opposition towards the saner elements. The diners gained the impression that Lloyd George would lead the new Centre party.

British Officials Honored By U.S.

General Pershing Grants Service Decorations in London

London.—General Pershing, the United States commander-in-chief, has presented Distinguished Service Medals to a number of prominent British government officials. Those who received the medals were Viscount Milner, Secretary for the Colonies; Winston Spencer Churchill, Secretary for War; Viscount Peel; Baron Weir, Director-General of Aircraft Production; Baron Leverworth (Andrew Weir), former Minister of Munitions, and Felix Cassels, Judge Advocate-General.

In presenting the medals, General Pershing said they were a token of the appreciation of the American government for services rendered by the recipients.

Prince of Wales' Tour

London.—Rt. Hon. Walter Long announced in the Commons that the Prince of Wales would embark for Canada on H.M.S. Renown, at Portsmouth, August 5. The Prince will visit St. John's, Nfld., thence proceeding in a light cruiser to St. John, N.B., and Charlottetown, where he will re-embark on the Renown and proceed to Halifax.

For Harvest Help

Winnipeg.—There will be a conference in Winnipeg July 24 to consider the general question of harvest help for the prairie provinces.

C.P.R. Offers Cup For Hard Spring Wheat

In connection with the International Soil Products Exposition which will be held at Kansas City, Mo., September 24th to October 4th, the Department of Colonization of the Canadian Pacific Railway is offering a silver cup of the value of \$500 for the best half bushel of hard spring wheat exhibited. It is hoped that every farmer in Alberta who has a good sample of wheat this year will submit a half bushel in this competition. Those competing for this cup will automatically become competitors for the prizes offered by the International Farming Congress in this class which include a first, second and third prize. In addition they have a chance of winning the sweepstakes for wheat. The winning sample of hard spring wheat is usually the best exhibit of wheat shown at the exposition and thus wins the sweepstakes prize, and the exhibits from Western Canada generally carry all before them in this class. Last year the C.P.R. cup, the sweepstakes for wheat and the first prize for hard spring wheat were won by Senger Wheeler of Rosethorn, Sask., with H. B. Sheeley, of High River, Alberta, a good second. No cup was offered by the C.P.R. in 1917, but the sweepstakes for wheat and first prize for hard spring wheat were won by Samuel Lacombe, of Birtle, Manitoba, in that year.

In addition to the above, other valuable prizes will be offered for every variety of field crops. Of late years farmers from Western Canada have carried away a lion's share of these prizes, and no doubt their exhibits will be conspicuous again this year. An official premium list of the exposition should be ready in a few days, and a copy can no doubt be obtained by writing to the Secretary of the International Farm Congress at Kansas City, Mo.

Double Wedding

FINLAY—WHITE
TENOVE—DUNNINGTON

A very pretty double wedding took place Tuesday morning last at 10 o'clock, in the "big brown tent," belonging to the business association, when Miss Mary Ann White and John Smith Finlay; also Miss Mable Alfreda Dunnington and Rev. Richard Suvan Tenove were united in holy matrimony. Rev. J. S. Daum of Edmonton performed the ceremony and was assisted by Rev. A. Traub, of Didsbury. Rev. Wm. Huff, of Sioux City, Iowa, led in prayer, after which Rev. Daum pronounced the benediction. Miss White was given away by her father, T. A. White, of New Norway and Miss Dunnington was given away by A. W. Whitelaw of this city. The brides were dressed in white silk crepe de chene and wore white milan straw hats trimmed with silk georgette, and carried bouquets of carnations, sweet peas and baby breath. The wedding march was played by White's brother, T. A. White, Jr.

The tent was beautifully decorated with green foliage and plants and as the couples left the tent they walked under an archway of bilules as a signification of the evangelical work they have done in the past years and hope still to continue. The happy couples were the recipients of many beautiful presents from their many friends. All the relatives present accompanied the bridal party to the C.P.R. station, where they were showered with rice and confetti. The couples travelled as far as Calgary, where they separated, Mr. and Mrs. Finlay going to Banff for a few weeks, and Mr. and Mrs. Tenove going to Saskatchewan,

A. Bushlin, another old friend of ours, now residing at Sterlingville, paid us a visit this week. He left some money with us. What? Certainly not! We are all total abstainers now. It was his subscription to the Pioneer.

Constable Sick has been unable to discover the driver who lost control of his car and jumped the sidewalk outside the Canadian Cafe. We have had one or two callers who state they could have made a much better job of it. They feel sure they could have gone through the window.

Our aim in this column is to keep it alive with news of local interest. Any tit-bit worth circulating sent to the office of the Pioneer will be appreciated. Business changes and real estate transfers are items that should be known to the public generally; births, marriages, and wedding anniversaries are events the public are eager to devour; church and society news should have its place in the paper. Send in the news, we will do the rest.

The opera house was crowded on Saturday night last when the great picture "When a Woman Sins" was shown on the screen. On Thursday and Friday we are to have "Chase Me, Charlie." This is such an attraction that only fear of heavy rains prohibits taking off the roof, as then visitors would be able to view from airplanes. Wouldn't it be nice to hear the audience singing "There are airplanes hovering round?"

At one of our little country churches where they are known to hold a prayer meeting after the usual Sunday evening service there was an old member who always took the opportunity to say a few words. The old man always finished his prayer with these words "Oh, Lord, brush away the cobwebs." One night, just as soon as the old man finished saying "Oh, Lord, brush away the cobwebs," a young man, sitting behind him, jumped up and shouted "Oh, Lord, kill the spider."

One of the competitors in the slow auto race, on vets' day, has already decided, if he wins first prize, what he will do with the money. He intends spending the entire sum in having a large photo done of our great public building, the Didsbury post office. The photo is not to be presented to His Royal Highness the Prince of Wales as a memento of his visit to the west as the photographer engaged says it would be next to impossible to do justice to the magnificence of the flap on the street letter box.

On Thursday last everything was successful at Hugh Gilmore's sale. Tip-top prices all the way. Mr. Phillipson was the auctioneer and Mr. Dickson, of Olds, the clerk. There was a large crowd and furniture and fixtures like the flames that burnt the ancient city of Rome kept soaring higher and higher. One very noticeable feature of the sale was the harness, all harness fetching more than the original price; one set which cost \$68 eight years ago was sold for \$74. During the proceedings Jim entertained the crowd to various selections which were thoroughly enjoyed. Leave it to the Irish.

Does a Farmer Need a Truck?

THE farmer with a Ford Truck practically lives next door to the market.

He has a choice of markets. He becomes more independent.

He can market his goods when and where he pleases.

He sells his crop to the very best advantage.

And his hauling costs him less—in labor and money.

It is not only cheaper to haul with a Ford Truck than with a team and wagon, it is quicker, it is easier work.

Consider the time and labor the farmer can save with a Ford Truck. With a team the trip to town takes the better part of a day.

A Ford Truck makes the same trip in two or three hours.

When labor is so scarce, what farmer can afford to waste day after day of his valuable time?

Ford Trucks Complete with Body and Enclosed Cab

Ford One-Ton Trucks are now supplied, if desired, with standard truck bodies in two types, the Stake Body and the Express Body.

In both standard bodies the cabs may be supplied with or without doors as desired.

See these complete Ford Trucks. Consider the matter from every angle; the cost of feeding horses against the cost of running a Ford Truck; the time you lose on the road; the money you lose by being so far from the best markets. There is only one conclusion you can come to. You will have a Ford Truck.

Memorial City In Belgium

Inter-Allied Commission Will Recommend Founding International City of "Geopolis"

Brussels.—The inter-allied commission which discussed the question of commemorating the war with a permanent memorial, will recommend the foundation in Belgium of an international city to be known as "Geopolis." The city would be built on one of the sectors of the fighting front in Belgium, which would be neutralized, and, according to the plans of the committee, would become the permanent seat of the League of Nations.

New Zealand Thanks America

Appreciation of Hospitality to New Zealand Troops Visiting the United States

Auckland, New Zealand.—Appreciation of American hospitality to New Zealand troops visiting the United States, and the camaraderie of the battlefield, have brought the big republic and dominion of New Zealand nearer than in pre-war days. This feeling was emphasized by Lieutenant Morton, who recently returned to Auckland from a lecturing tour in America. An official recognition was also given by the Wellington City Council, which sent a vote of appreciation to officials at Panama and Colon in connection with the treatment of New Zealand soldiers passing through the canal. It is interesting in this connection to note that Australia has cabled its gratitude to the Panama Canal administration, through the imperial government.

Sydney, New South Wales.—The Returned Sailors' and Soldiers' Imperial League of Australia has been approached, with a view to affiliation, by organizers of a society of allied war veterans, which is being formed by repatriated American soldiers. Probably the movement for an inter-empire soldiers' association will take shape before that of allied war veterans.

LEMONS WHITEN AND BEAUTIFY THE SKIN

Make This Beauty Lotion Cheaply for Your Face, Neck, Arms and Hands

At the cost of a small jar of ordinary cold cream one can prepare a full quart of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan, and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quart of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It is marvelous to smoothen rough, red hands.

Canada Wants Big Poultry Industry

Preaching the Gospel of Increased Poultry Production to Canada

Montreal.—The hens of Canada, if properly encouraged, could pay the nation's war debt in a few years, according to F. C. Elford, apostle of the barnyard chicken.

The 1,000,000 farms of Canada should have 100,000,000 hens on them, and there should be 10,000,000 additional hens in towns and villages. At a low estimate of ten dozen eggs from each hen, these hens would produce 1,100,000,000 dozen eggs. If these eggs sold at 60¢ a dozen, which is below the present price, Canada's egg crop would bring in \$660,000,000 a year.

Mr. Elford is preaching the gospel of increased poultry production to Canada. He wants especially to get across to the settlers who are pouring in upon the land the message that under present food conditions the barnyard fowl lays golden eggs.

Nearly a billion chickens are raised yearly in the U.S. In 1900 Uncle Sam's wealth from poultry and eggs was greater in money value than the world's output of gold or silver. In 1899 the value of all the wheat, corn, barley, rye, buckwheat, rice, flax, small fruits, sugar cane and sugar beets raised in the United States was less than the revenue from chickens.

Supplying Farmers With Breeding Stock

Saskatchewan Department of Agriculture Encouraging Mixed Farming

The Saskatchewan Department of Agriculture, with a view to encouraging mixed farming, will supply farmers with breeding stock at first cost. The department has at Regina 24 pure-bred bulls, including Short-horns, Herefords, Polled Herefords and Aberdeen Angus. Not a few farmers are starting to raise beef cattle, engaging in dairying or starting with small flocks of sheep, and it is with the intention of encouraging this that the livestock branch is making the above offer. As orders come in, more sires will be purchased, and Ayrshires and Holstein sires will also be secured for dairy farmers. These sires are sold for cash or on easy terms. Last year 125 were sold through the department, and this year it is expected that between 150 and 175 will be sold.

This is to certify that fourteen years ago I got the cords of my left wrist nearly severed, and was for about nine months that I had no use of my hand, and tried other Liniments, also doctors, and was receiving no benefit. By a prescription from a friend I got MINARD'S LINIMENT and used one bottle, which completely cured me, and have been using MINARD'S LINIMENT in my family ever since and find it the same as when I first used it, and would never be without it.

Britain Leads

Britannia Rules the Air as Well as the Waves

The New York Tribune points out that in 1914 Germany was first, France was second, Italy was fourth and the United States was last in the appreciation of aircraft, as shown by the amount of money each was willing to spend on that arm of preparedness. When the armistice was signed, on November 11, 1918, the personnel of the military air force in each of these countries was as follows:

	Officers and men
Great Britain	295,000
United States	185,852
Italy	100,337
France	80,000
Germany	Unknown
Great Britain is determined to maintain her lead, in evidence of which appropriations for the year 1919-20 follow:	
Experiments and research in civil aviation	\$15,000,000
Military and naval (joint service)	\$315,000,000
Total appropriated for the air	\$330,000,000
It is now as appropriate to sing "Britannia Rules the Air" as it is to sing "Britannia Rules the Waves."

Coal Prices Sure to Advance!

Minister of Trade and Commerce Issues a Note of Warning to Coal Consumers in the Dominion

Ottawa, July 21.—Sir George Foster, minister of trade and commerce, has issued the following statement on the coal situation:

"With the signing of the peace treaty the United States fuel administration has automatically ceased to exist, and the production and distribution of coal in that country is now governed solely by the law of supply and demand. War time legislation, restrictions and embargoes have been cancelled. As has been previously intimated, the Canadian fuel control was disbanded on March 31st last. The coal supply of the nation therefore now depends on the individual efforts of the coal trade, and the co-operation it receives from the consumers in placing their orders for coal at once. The information at hand indicates that coal is not coming into this country in the same quantities as last year, or even as it did in normal pre-war times. This is especially true in the maritime provinces. With the strong demand for coal and the lessened production, there is little room to hope that the price of anthracite at the mines will fall for many months. In fact the indications are that the price will continue to advance as the fall and winter approaches. It is not safe to assume that next winter will be a mild one. Nor is it possible to forecast what the labor situation at the mines will be, or what success the railroads (just emerging from the strain of the war period) will have contending against possible adverse climatic conditions this coming winter. The government therefore urges all consumers to protect their fuel requirements by placing their orders at once. If it is impossible to secure full requirements of anthracite at this time, it is suggested that bituminous coal or other substitutes be acquired for use in the late fall and spring.

AROUND THE TOWN

Miss Lewis, of Richdale, has accepted a position as stenographer with the Western Mutual.

Mr. H. Pearson's father and mother are in Didsbury. They arrived here from California last week.

Mr. E. E. Freeman has returned from his trip to Chicago. He has lost none of his good-natured smiles.

The Rev. H. M. Short will hold services at Rugby schoolhouse, at 3 p.m., on Sunday, Aug. 3rd.

One of our townsmen had the misfortune to lose a large sum of money last Saturday. We are told that it was close on to \$400.

The rainfall of the past week has been very welcome. It is stated that Crossfield has had more than its share between here and Calgary.

Mr. and Mrs. L. C. Coffey and little daughter, Doris, were weekend visitors at the home of Mr. and Mrs. H. E. Osmond.

We are pleased to report that Miss Beatrice Leisemer is recovering from the operation performed on her for appendicitis.

We were especially pleased to have our old friend, Mr. R. Hollinger, call on us last week. Call again, "For auld time's sake."

Mr. Tarn took a trip to Medicine Hat for the week-end. He says change the name and call it the Sahara desert.

Mrs. Nazarevitch who underwent an operation at Holy Cross Hospital, last Saturday, is progressing very favorably.

Miss Todd will address the Women's Institute on August 8th at 3 p.m., at the home of Mrs. Chambers, on "History and Art." All ladies cordially invited.

Office furniture and appliances, if in condition for use, are marketable. Don't just "store" things that you no longer need—for they will bring cash if advertised in the classified.

At Littlehampton, Sussex, Eng., Veretta May, daughter of Mr. and Mrs. J. H. Brown, was married to Mr. S. S. Nelson, of St. John, New Brunswick.

Fred Osmond, ledger keeper at the Union Bank, returned from a two weeks' vacation spent at Calgary and Banff, on Tuesday. Who said "much envy"?

Shanon Bros. though busy on their new garage are finding time to fill in the big hole at the back of the premises. This will prevent flooding should there be any heavy rains.

If there are any returned men sufficiently interested in the forming of a G.W.V.A. Local for Didsbury, will they send in their names to the Pioneer? If they do so we will see what can be done in the near future.

Teacher: "Who made the world?" Little Tommy: "Please sir, I didn't." That boy knew something. We are not at the moment so concerned about that question but we really would like a half hour with the parties responsible for some of the people there are in it.

To the many sympathetic enquirers who have called and asked how the editor, Mr. Osmond, is getting along, after his illness of the past week, we tender our thanks and are pleased to report that he is improving.

Mr. Parker R. Reed has taken a trip to Brandon for the purpose of attending the meeting of the Western Canadian Mutual Fire Association. Mrs. Reed and the children have gone to Gull Lake for their summer holidays.

We wish to correct the rumour that the Pioneer has received an intimation that His Royal Highness the Prince of Wales will lead the parade on vets' day. He says "Honour to those to whom honour is due." If he does come he intends to spend the time seeing the "sights." We ourselves expect to see some.
